

## 2002 Property Tax Rates in City of San Antonio

This notice concerns 2002 property tax rates for **City of San Antonio**. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

= This year's effective tax rate	\$0.57482 / \$100
x 1.03 = Maximum rate unless unit publishes notices and holds hearing	\$0.59206 / \$100

### This year's rollback tax rate:

Last year's adjusted operating taxes	\$139,675,306
